BELT FURNACE FOR STRESS-RELIEVING-CBD

TECHNICAL DATA

Equipment type	Stress-relieving belt furnace	Cooling tunnel in nitrogen	Air cooling plant
Useful dimensions, LxWxH, [mm]	8800x1100x200	2340x1100x200	2950x1100x200
Capacity, [kg/h]	3300		
Working temperature, [°C]	550		
Heating	electric		
Heating elements	vertical resistors in metallic tubes		
Temperature control	with PLC and operating panel		
Cooling of parts		nitrogen	air
Temperature of parts at exit of the cooling zone:		300	50
Installed power, [kW]	214		
Supply voltage	3x400V-50Hz
