DISCONTINUOUS WASHING MACHINE - MSD

TECHNICAL DATA

Washing machine type	MSD - 5x4x2	MSD - 9x6x4	MSD - 12x7,5x5	MSD - 12x7,5x7
Operation	discontinuous with elevator			
Washing	through immersion, tilting, spray rinsing and drying			
Useful dimensions, LxWxH [mm]	500x400x200	900x600x500	1200x750x500	1200x750x700
Charge weight[kg]	100	300	600	800
Washing agent	alcalyne sollution and detergent			
Tank capacity[l]	1700	2800	3200	3400
Working temperature[°C]	50 - 70			
Heating	electric/gas			
Installed power [kW]	30	40(80)	40(80)	45(85)
Supply voltage	3x400 V - 50 Hz			

NOTE:

The machines are fitted with an automatic process control system with programmable automaton.
The technological flow consists of insertion of fixture with parts, immersion and tilting, removal of oil film from the surface of the washing sollution, lifting of fixture with parts, spray rinsing, drying, exit of fixture with parts.
The machine is endowed with automatic oil removal system.
On request, machines can be offered with other useful dimensions.
