Quenching line for aluminum profiles

Specifications	
Capacity	300 Kg
Useful dimensions, LxWxH	5200x1000x2100
Working Temperature	max 550°C
Heating	electrical
Heating elements type	metallic heaters in metallic tube
Temperature control	With PLC & HMI from Allan Bradley
Installed power	
Total	~ 270 kW
For heating	216 kW
Water bath volume	~ 30 m^3
Water temperature	15…32°C
Technological gases	n.a.
Supply voltage	3x400VAc
